Remember that God uses a donkey to speak to Balaam. Balaam was a Mesopotamian prophet of the pagan gods and he can talk to Jehovah God, but his heart was not fully into God's commandments and he loves money and would work for the pagans and unbelievers to attack the people of God. Some pastors claim that Balaam was a Divinator, because Balak paid Balaam a divinator's fee as in:

Numbers 22:7 New International Version (NIV)

7 The elders of Moab and Midian left, taking with them the fee for divination. When they came to Balaam, they told him what Balak had said.

But Balaam was a seer and in those days a seer is a prophet, although he is not an Israelite prophet. Balaam loves money and for his services he was a prophet for hire. In the days of Balaam, God uses a donkey to warn him of his folly. Yes, it is written that a donkey talks to man. One testimony I had which was quite close to this experience; was when God

uses an animal to answer my questions. You can say he used a cat to reply me. This happened in the year I had simultaneously 5 crises. The crises came all at once, I had a job crisis, health crisis, family relationship crisis, a terminate disease crisis with one of my closes kin, and then our country was having an economic crisis at the same time. Yes, they all came together at the same year and also one after another within days. It was like a sudden attack of the case of Job, where everything fell apart. These are all things which no men have any control over.

But today, I am going to tell the story of one of my crisis which is the about my closest kin, my sister was diagnosed of breast cancer and I wanted to asked the Lord if she should do the Daniel fast which is to eat only vegetables and organic food. It's not a Buddhist thing to eat only vegetables; Daniel in his training also ate only vegetables because he did not want to be corrupted by the Babylonian way of eating meat with blood in them.

The next day, the Lord God answered me when I saw a pure white Cat eating grass in front of my garden. White represents righteousness and Cat is something to be marveled, because Cats eats fish and meat only, they don't like vegetables. But I knew when they got sick they will eat a certain type of grass which I had learnt in my younger days since I love to rear cats as pets. And this phenomenon, gave me the answer that yes, she should eat only vegetables during her recuperation period.

I had also asked the Lord to show me a testimony of a Lady with a more advanced stage of cancer so that I could contact her and may be the Lord will convict my sister and she would receive Christ as her Savior. However, some how, I prayed another prayer and asked the Lord to show me any book that has this testimony and the Lord brought me to a bookshop and I saw the book "Cancer Battle Plans". I saw it was good but did not realize that the author was an American woman and she had stage four breast cancer and she won the fight. So this book gave my sister hope and comfort. Praise the Lord for his goodness and mercy. She became a Christian later on. Even more glory to the Lord, she is alive and well today. Yes, we should pray, but we should also have the correct action that supports the word of God in that situation. Faith without deeds is dead.
